DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3, 4, 10-12 and 17 are allowed.
2. The following is an examiner's statement of reasons for allowance: applicant's claimed invention defines a signature creating apparatus which creates and connects a digital signature having a clock, storage units, connection units and signature creating units. The prior art of record, Blandford, Hartman and Camion, teach or suggest a similar device. However, neither Blandford, Hartman nor Camion teach or suggest either individually or in combination the feature of a confirming unit which confirms the working state of the clock, the signature creating unit creating the digital signature only when the confirming unit confirms that the clock works normally, stops using the key used only for creating the signature when the confirming unit confirms that the clock does not work normally, and creates an alternate digital signature using connected information which does not include the time information and using a key other than the key used only for creating the signature. Hence, claims 1, 3, 4, 10-12 and 17 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
